So many people near the border have family just across the border like Enfield to Springfield. they would be taxed to go see their mother, father, brother . Enfield people use Springfield hospitals, nursing homes and doctors and are taken there by ambulance because it is quicker than Hartford in emergencies would be taxed for this. College kids crossing the border to attend Springfield college ,AIC, Holyoke College as day students would be taxed every day.Many people from Enfield work in Springfield hospitals, Springfield auto dealers, Springfield/ west springfield/holyoke stores, Chicopee manufacturing ,Fed Ex mail center, and federal offices there. basically it is robbery to the people who live on these borders and have to cross every day . Sandra Day
